

Experience the Digital Power of USB Phone 2 PC – Basic with Transcription

Tired of lost or broken cassette tapes? Need more than a voice recorder or tape playback? Want to access information quickly and accurately, including electronic transfer through any platform? Throw away your cassette tapes and check out USB Phone 2 PC Basic with Transcription by Konexx.

YOUR DEES SOLUTION

The USB Phone 2 PC – Basic with Transcription is the ultimate low cost on demand recording and transcription solution. Record telephone conversations digitally to your PC or notebook. File the recordings for later retrieval and playback. Transcribing the recordings or generating reports based on the recordings is easy and efficient with the easy to use 3 Key Foot Pedal.

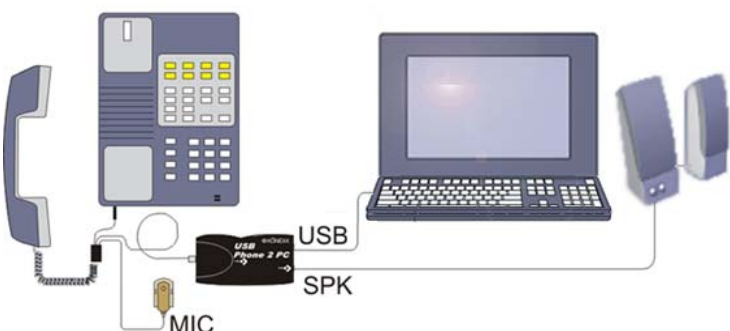

- ❑ Play back all of your important conversations. Easily access and replay of important details that transpired.
- ❑ Eliminate the classic tape recorder and improve recording quality dramatically.
- ❑ Great organizational tool that saves your conversations in folders and directories on your PC just like your Word and Excel files.
- ❑ Share necessary information with your colleagues by emailing the conversations as an attachment.
- ❑ Replace note taking and memory for the complete recall of important conversations.
- ❑ No computer sound card needed USB Phone 2 PC is the sound card.
- ❑ Use the supplied external microphone for dictating purposes.
- ❑ Control the playback functions (Play, FF, Rewind and Pause) using the supplied 3 key foot pedal leaving your hands free to type while transcribing the recordings.
- ❑ Compact size and lightweight interface with easy to use recording software.

Recording, saving and transcribing your conversations is quick and easy with the USB Phone 2 PC – Basic with Transcription

THE PHONE 2 PC – BASIC WITH TRANSCRIPTION

Features:

- ◆ USB Phone 2 PC hardware and software easily installs on an individual PC or notebook.
- ◆ Recorded files may be stored on the local hard drive or a network server.
- ◆ USB Phone 2 PC Interface connects your telephone with your computer enabling you to record telephone conversations as compressed wav files.
- ◆ Saved files can be e-mailed as attachments and archived for future reference.
- ◆ No external power source needed. USB Phone 2 PC gets its power from the USB port.
- ◆ Easily switch from recording phone conversation to recording from the supplied external microphone.
- ◆ Auto file naming feature allows you to save files with prefixes and/or date/time as the file name automatically.
- ◆ Pre-programmed foot pedal settings allow for ease of operation.
- ◆ Includes a counter window to keep you informed of playback position.
- ◆ Includes an external microphone for easy dictation recording.
- ◆ Enables audio files to be played through the telephone set.
- ◆ Free to distribute Konexx Transcription Player – media player. Play functions are controllable by the foot pedal. Included so a second person can transcribe the recordings.

Specifications:

- Phone 2 PC software uses GSM 6.10 compression algorithms to keep file sizes manageable (1 hour of recording time = approx. 5.6 MB).
- Compatible with Microsoft Windows 98SE, Millennium, 2000 or XP Operating Systems (OS).
- Automatic Recording Level (ARL) ensures conversation is recorded clearly.
- Interface size: 3.0" (L) x 1.3" (W) x 1.0" (H).
- Weight: 1.5 ounces.
- Powered by computer's USB port.
- Foot Pedal interfaces to computer's PS2 port (connects between the keyboard and the computer on PCs).

Applications:

- ☞ Playback all of your important phone conversations.
- ☞ E-mail the conversation to associates (no time delay!).
- ☞ Dictate using the included external microphone or using your phone's handset.
- ☞ Record conversations for training purposes.
- ☞ Eliminate the hassle of sorting through and storing cassette tapes; record directly to your computer.
- ☞ Record important voice mails and archive them for future reference.
- ☞ Organize your recordings in folders and directories on your PC just like your Word or Excel files.
- ☞ Record phone calls, interviews, dictation, etc. and use the transcription (foot pedal) feature to type your reports.
