 minutes

Programming String \* **3** \* **54321** \* **12** \* **24** \* **30** \*\*

*User Password LL HH Time-Out*

*DeesLink Access*

Telephone Number **(425) 555-1212**

---

*Notes*

The above is an example of how the System Administrator completes and records the programming string for ABCD Company. In this example, John Doe has been designated User 3, which gives him access to Port A. His password is 54321. He is restricted to accessing CM Lines 12 through 24, and each session is limited by Time-Out to 30 minutes. The access line for the example DeesLink is (425) 555-1212.
